

PRESIDENT

FEDERATED CONFERENCE ON COMPUTER
SCIENCE AND INFORMATION SYSTEMS

Dear Colleagues,

It is my great pleasure to welcome all the participants of the Federated Conference on Computer Science and Information Systems (FedCSIS), which this year takes place in the beautiful city of Wrocław at the University of Technology; university with a long tradition and vibrant Faculty of Computer Science and Management. The FedCSIS conference, with its 300 registered participants from all inhabited continents, has become the largest international scientific conference in the area of Information and Communication Technologies that originated and is regularly organized in Poland. The stringent refereeing and the acceptance rate of less than 50% indicate that the conference is not only large, but also attracts high quality submissions.

I sincerely hope that your time in Wrocław will not only be productive from the professional point of view, but that you will also have time to enjoy the historic city of Wrocław, which has been successfully renovated within last 30 years.

Wishing you a successful conference,

Michał Kleiber
